## APPLICATION COMPARISONS

## P-S vs. HA Application Spread Sheet 1

Both pressure-sensitive and heat activated boards are compared across manufacturer, porous, photograph, digital and other applications.

## **Board Comparisons/P-S vs. HA Applications**

Board  This chart is a combination of manufacturers suggestions AND the result of well bonded, visually pleasing mountings.  Some mount boards create too much orange peel to be used from photos.		Types of Art											Digitals											E	quip	mer	nt		Basic Applications											
	Porous Paper	Coated Paper-mech	Coated Paper-vacuum	Heavy Paper	Asian Papers	Watercolors	Original Graphic	Polyester Encapsulate	1/8" Competition Photos	RC Photo-mechanical	RC Photo-vacuum	Paprics/Textiles	Kaw Canvas	Elecrtrophotographic Flectrostatic/Lacer	Dve Sublimation	Thermal Transfer	Thermal Inkiet	Piezo Inkiet	Digital Canvas	Digital Calivas	Boards Warped	No Bites	Neutral pH	Orange peel	Rollers	Mechanical	riot vacuulii	Manual		Preservation	Porous Paper	Photography	Digitals	Digital Canvas	Raw Canvas	Screen Print	Sign/Display	Encapsulated Map
